DECAMPLABS / PRESS FACT SHEET / OCTOBER 2026

PHNTM One

Your own AI assistant, on your desk.

Private local chat, documents, notes and voice.
No required subscription for local use.

10.1-inch touchscreen • On-device AI • Tap-to-talk voice **$799***

WHAT IT IS

PHNTM One is a touchscreen AI appliance for people who want useful AI on hardware they control. Work with your files, talk through ideas and keep project details in one place. No cloud account is required for local use.

WHAT YOU CAN DO

Chat and voice. Type or tap to talk. Speech recognition and spoken replies run locally in Private mode.

Your documents. Ask questions about your files, with cited source material you can check.

Notes and memory. Keep an original note while trying an AI draft. Save, search and review project details.

EDUCATION AND PROJECTS

BUILD STATUS AND LIMITS

PHNTM Mentor: Tutor practice and Parent view.
PHNTM Missions: starter projects with recorded evidence. See current capabilities and limits online.

Review-build features; testing continues. Project guidance is not a safety certification. Check phntmcore.com/features.

PRIVATE BY DEFAULT

Private is the default. Chat, document and voice processing run locally. A phone companion can connect over your local network.

Optional Boosted mode uses your own provider key for cloud assistance, billed separately by that provider.

HARDWARE AND ESSENTIALS

Raspberry Pi 5 • 8 GB RAM
10.1-inch touchscreen • speaker
microSD storage with software and models
USB microphone • mini keyboard with touchpad
27 W power supply • printed manual

HONEST TRADE-OFFS

A smaller local model is slower and less capable at complex reasoning than frontier cloud services. Verify important answers.

Oct 30 review-unit test, 8 warm answers: medians 19s to first words / 28s complete. First uncached: 87s / 94s. Dated results, not a performance guarantee. Conditions: phntmcore.com/proof

THE PERSON BEHIND IT

I’m Jacob DeCamp, founder of DeCampLabs in Kansas. My background is in hydraulics sales, leadership and technical training. I’m building PHNTM One alongside my day job. I assemble the units and handle support myself.

FOR REVIEWERS AND INTERVIEWERS

For review-unit availability, interviews and hands-on questions, contact Jacob.
